Why so many of America's public university students are not graduating—and what to do about it The United States has long been a model for accessible, affordable education, as exemplified by the country's public universities. And yet less than 60 percent of the students entering American universities today are graduating. Why is this happening, and what can be done? *Crossing the Finish Line* provides the most detailed exploration ever of college completion at America's public universities. This groundbreaking book sheds light on such serious issues as dropout rates linked to race, gender, and socioeconomic status. Probing graduation rates at twenty-one flagship public universities and four statewide systems of public higher education, the authors focus on the progress of students in the entering class of 1999—from entry to graduation, transfer, or withdrawal. They examine the effects of parental education, family income, race and gender, high school grades, test scores, financial aid, and characteristics of universities attended (especially their selectivity). The conclusions are compelling: minority students and students from poor families have markedly lower graduation rates—and take longer to earn degrees—even when other variables are taken into account. Noting the strong performance of transfer students and the effects of financial constraints on student retention, the authors call for improved transfer and financial aid policies, and suggest ways of improving the sorting processes that match students to institutions. An outstanding combination of evidence and analysis, *Crossing the Finish Line* should be read by everyone who cares about the nation's higher education system. Barron's SAT

Subject Test Physics is updated to reflect the current test and features three full-length practice tests along with detailed content review and expert tips to help students improve their score. This edition includes: One diagnostic test to determine strengths and weaknesses Three complete SAT Subject Tests in Physics, which reflect the most recent actual tests in length, subject matter, and degree of difficulty Answers and explanations for all questions Self-assessment guides after each test so students can measure their progress Extensive subject review covering all topics on the test, including mechanics, electricity and magnetism, waves and optics, thermodynamics, and more. Online Practice Test: Students also get access to one brand new, full-length online practice test with all questions answered and explained. Unique features include a “What’s the Trick?” approach to solving problems quickly and effectively. Additional tips, called out with “If You See...” are included within the chapters to give test takers critical insight into difficult concepts, and QR codes are provided at “Key Concept” areas link to short videos to enhance instruction. The authors also provide general examination strategies and a detailed appendix with equations, physical constants, and a basic math review. Nothing gives you a second chance at love... ..like a 30 hour train ride to Florida. High school may have been three years ago, but Claire Ackerman and Aiden Lewis know each other more than they’re willing to admit. Their past created a tie between them that neither thought they’d have to acknowledge again, and when Claire unknowingly storms into the bar Aiden frequents in their hometown of Beacon, New York, they’re both thrown off by the sudden reunion. A lot has changed since high school. Aiden is shut off from the world, and Claire has just had the rug ripped out from under hers. But even though he finds her a little uptight, and she finds him a little rude, the pair end up on a train to Florida together regardless. Claire gets on board as a way to celebrate her newfound independence, and Aiden joins because, even though he swore he’d never go back to Florida after what happened, he’s worried about the girl from high school that he could never fully forget. The two have a plan, and they have rules, but things don’t turn out how they expect. Because rules are made to be broken. And even the boldest of lines are meant to be crossed. You’ll fall in love with Aiden and Claire in this grumpy-sunshine whirlwind of a romance. Get your copy today! This high tech semiconductor chip manufacturing plant on the border of California and Mexico was in serious trouble. Its reputation had been tarnished, its image seriously damaged, and its future uncertain due to the plants lingering quality and delivery issues. The corporation was on the verge of losing one of their top customers due to the Mexican plants performance. Change was needed and urgency was the order for the day! This true story describes how the author, a born and bred U.S. citizen, was cast into a new unfamiliar and uncomfortable environment in Mexico with the task of leading the operational transformation of a large Mexican maquiladora plant, whose output controlled the majority of the companys revenue. Without knowing the language, customs, or traditions, Karl Mentzel shares his real life experiences over a three-year period in Mexicali, Mexico, a city of one million people, as he is confronted with the challenges and differences of two countries and cultures. As the only U.S. resident citizen in a plant of over 2,000 Mexican national employees, he describes his teams extraordinary journey that led them from a marginally performing plant to one that achieved national recognition as the countrys top maquiladora, after being selected to receive the highly coveted National Export Award personally from Mexicos President, Vicente Fox. Throughout the book, he draws upon the values instilled in his upbringing and from his past experiences and mentors and describes how they so significantly influenced his leadership in this extremely challenging role. Mr. Mentzel conveys the disciplined and radical changes and initiatives that were launched to enable the successful transformation, while maintaining respect for the teams cultural values and differences. Crossing the Cultural Border is a must read for any business person entering a new country or culture to effectively lead and transform organizations. The authors study crossed products of arbitrary operator algebras by locally compact groups of completely isometric automorphisms. They develop an abstract theory that allows for generalizations of many of the fundamental results from the selfadjoint theory to our context. They complement their generic results with the detailed study of many important special cases. In particular they study crossed products of tensor algebras, triangular AF algebras and various associated C\*-algebras. They make contributions to the study of C\*-envelopes, semisimplicity, the semi-Dirichlet property, Takai duality and the Hao-Ng isomorphism problem. They also answer questions from the pertinent literature. The Teacher's Manual contains teaching suggestions and an answer key for the Student's Book. Crossing Twice: Answers from the Source is the true story of Reece Manley's near death experience. Crossing from this life to the next, the reader follows through the stages Reece experienced and the crushing return to Earth. Reece when on to recover and developed an incredible new sense of personal spirituality and a message of love, hope, inclusion and power for all mankind. Crossing Twice brilliantly describes the other side in beautiful detail and recounts all in a fun, caring style showing care and compassion for the reader. Reece goes on to answer questions commonly asked about his experience. Dr. Reece W. Manley, DD, M.Ed., MPM, is the lead therapist for Horizons Counseling in Dallas, Texas. Standing Bear and I met again for the first time in the 1980s. To say he changed my world would be the biggest understatement of my life. He, and his shamanic ways, sent amazing waves through my universe. I wrote Casting Dreams—Crossing Time, my remembering of our story, in 2000. What took so long to release this book? The three of me could explain . . . Janet would tell you I had to finish living it. Dr. Jan would tell you that timing is everything. And Auntie Jan would wax my truth poetically, “Ah, ’twill be midnight rising 2015 when that clock will chime. I can publish this book now because it is our truth, way back when and even then. Bear and I really did and did really cast our dreams and cross our time. This book is about real live stories, of how our faith in God brought many miracles of extraordinary events which manifested divine intervention. This book will strengthen the faith of many believers to trust in God, to answer their prayers. The book of Hebrews 11th chapter, which is a Faith chapter, with forty verses that each verse describe's what Jesus, is to their faith. There are forty stories, a story for each verse. This volume brings together original papers from language education scholars from around the world to explore, exemplify, and discuss the multiplicity of boundary crossing in language education. It emphasizes the potential of boundary crossing for expansive learning, and aims to generate new insights, through boundary crossing, into the complexity of language education and approaches to innovative practices. This volume also underscores the important role of expert boundary crossers. In particular, it aims to honor G. Richard Tucker, Paul Mellon University Professor Emeritus of Applied Linguistics at Carnegie Mellon University, celebrating his distinguished scholarship on language education and paying tribute to the inspiration and mentorship he has given to the contributors of this volume to cross boundaries academically and professionally. This volume is organized into four sections, namely, language learning and development; teachers and instructional processes; program innovation, implementation, and evaluation; and language-in-education policy and planning. These sections or themes, which are necessarily cross-cutting, also represent the major areas of scholarship where Prof. Tucker has made distinguished contributions for over half a century. Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze! The 180 Days of Problem Solving e-Book for Grade 1 offers daily problem solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly e-Book provides thematic units that connect to a standards-based skill that first grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards. Crossing Cultures provides a bold and refreshing new resource for teachers and trainers with proven methods for developing coping strategies and problem-solving skills in the cross-cultural arena. A comprehensive study structured to provide a framework for teaching; each chapter contains a teaching module, highlighting the potential difficulties, dialogues and variations in cross-cultural teaching. Ideal for those teaching Business across borders, this is a uniquely practical guide that features contributions from the leading lights of the field. □□□□□□:Kara Dworak,Mary McVey Gill,Pamela Hartmann□□ In my pursuit of worldly success, I became lost in the darkness of the world. The road I was walking, God gave me signs and detours I choose to ignore. I let the enemy lead me into the dark abyss of life. Then one day, God shined a ray of hope

into the darkness and brought me to a dead-end road. He led, I followed, and He brought His lost sheep home. He spoke, I listened, and I heard His voice. "He said, let us take our journey, and let us go, and I will go before thee" (Genesis 33:12). He would heal me, our home, marriage, and family. He would bless us through obedience; give me grace I did not deserve. He would teach me to have faith in Him as we walked the white rock path to cross the Great Divide to the other side. He would teach me as we journeyed to the top of the mountain in search of the lone tree atop the mountain. Mark, the shortest of the four gospels, presents Jesus as the Son of God who crosses the religious and social boundaries of his time in order to extend God's rule to include the outsiders and those who are unclean. It continues to challenge readers to follow Christ across the boundaries that separate people. This commentary, like others in the Chi Rho series, uses language that is simple and clear, avoiding technical terms. It gives an explanation of the text that is sound and reliable, easy to understand without being superficial. Is there a line she won't cross? Katya's sister is brutally murdered while working undercover for the Russian Security Service and no one seems to care. After her parents and grandparents die in a suspicious car accident and the authorities still won't take any action, Katya travels to America, following the man she believes is responsible, determined to find her own justice. She becomes caught in a dangerous and demanding game balancing the demands of two men with her obsession for the truth. Ethan, an FBI agent, is on the side of right. Aleksei, an enigma, is as bad as they come, yet it's the man with darkness inside him who offers a chance of discovering what happened to her family. If she wants those responsible to pay for the murders, how far is she prepared to go? IS HEAVEN ON EARTH POSSIBLE? Do you feel that you wanted to pursue an intimate relationship with the Lord but always failed to do so? Is there a time in your life that you experienced God's love, only to find out that tomorrow it was gone? Many started to love the Lord but was not able to continue pursuing Him. Many started strong but ended wrong. Many had visions and enormous experiences but failed to persevere in serving Him. WHY? Because many had forgotten to master CONSISTENCY in their christian journey. The Lord is not impressed with talents or skills. But, He honors people who consistently dine with Him at His table. In Crossing the Line, you will find: \* The reason why you are extraordinary and how you can live an extraordinary life through the Holy Spirit. \* How you can tap from the right source of power that will enable you to combat daily battle. \* How you can develop your ability to live the supernatural life that God has planned for you. \* The power of consistency in pursuing a relationship with the Lord. This is a 5-minute daily read that will help you start up your day. Your relationship with the Lord is only developed if you consistently nurture it. The anointing from the supernatural can rest upon you if you choose to cultivate and practice it daily. Experiencing the power of God over your life, your ministry, your family, your career, your business, and the other areas of your life depends on how you develop your intimacy with your Maker. In 30 days, you will receive personal insights that will renew your mind and help you learn how to cross the line between the physical realm and the spiritual realm. Read this book and Get ready to receive your new identity! Students who often complain when faced with challenging word problems will be engaged as they acquire essential problem solving skills that are applicable beyond the math classroom. The authors of Crossing the River with Dogs: Problem Solving for College Students: - Use the popular approach of explaining strategies through dialogs from fictitious students - Present all the classic and numerous non-traditional problem solving strategies (from drawing diagrams to matrix logic, and finite differences) - Provide a text suitable for students in quantitative reasoning, developmental mathematics, mathematics education, and all courses in between - Challenge students with interesting, yet concise problem sets that include classic problems at the end of each chapter With Crossing the River with Dogs, students will enjoy reading their text and will take with them skills they will use for a lifetime. This 20-hour free course explored how information in its various forms can cross the boundary from the analogue universe into a digital world. From 1972 to 1974, I was working on a PhD thesis entitled Multiple Server Queues with Service Time Depending on Waiting Time. The method of analysis was the embedded Markov chain technique, described in the papers [82] and [77]. My analysis involved lengthy, tedious derivations of systems of integral equations for the probability density function (pdf) of the waiting time. After pondering for many months whether there might be a faster, easier way to derive the integral equations, I finally discovered the basic theorems for such a method in August, 1974. The theorems establish a connection between sample-path level-crossing rates of the virtual wait process and the pdf of the waiting time. This connection was not found anywhere else in the literature at the time. I immediately developed a comprehensive new methodology for deriving the integral equations based on these theorems, and called it system point theory. (Subsequently it was called system point method, or system point level crossing method: SPLC or simply LC.) I rewrote the entire PhD thesis from November 1974 to March 1975, using LC to reach solutions. The new thesis was called System Point Theory in Exponential Queues. On June 12, 1975 I presented an invited talk on the new methodology at the Fifth Conference on Stochastic Processes and their Applications at the University of Maryland. Many queueing theorists were present. This resource is robust and relevant, helping students prepare for life beyond school. Students will gain regular practice through these quick activities. Perfect for additional practice in the classroom or at home! Perfect practice makes perfect! Considers legislation to authorize the construction of the Theodore Roosevelt Bridge or a tunnel across the Potomac River in the vicinity of Constitution Avenue, D.C. This book provides a framework for academic vocabulary and language instruction in today's diverse classrooms. The authors present a set of strategies and tools that work effectively across all content to support enhanced comprehension and academic success. The strategies have evolved from over a decade of research and classroom observation to provide teachers with multiple avenues for making content accessible and relevant for all students, especially those who are culturally and linguistically diverse. This book documents my book reading experience and my reflections upon politics, education, psychology, communication, religion, and philosophy...etc. as well as my mind reading experience. It is a collection of my posts on my blog and on Facebook, where I have been sharing my thoughts and interacting with top political and business leaders, celebrities, and scholars in America, Europe, and Asia, implicitly and explicitly during the past two years (Sept.2010 through Sept.2012). It is possible that my Facebook posts might have inspired lots of creative celebrities who produced stunning songs, movies, and TV shows. "This book is fast-paced and lively, reminiscent of a Tom Clancy thriller." - The US Review of Books In this edge-of-your-seat thriller, author Dave Edlund brings readers face to face with the promise of energy independence... and its true cost. As one by one the world's leading alternative energy researchers are assassinated, Peter Savage and his friend Jim Nicolaou race against the clock to preserve the secret that promises to change the landscape of the world... or start a global war. Described as "taut, "heart-thumping" and "with spot-on science," Dave Edlund shows us theoretical abiogenic oil production and, more importantly, the terrifying array of unintended consequences that accompany the belief that energy independence can be realized. Crossing Savage won the Ben Franklin Silver Medal for Popular Fiction, and was a finalist in the INDIEFAB awards. "The military scenes could not have been better written if Tom Clancy wrote them himself." - Stephen Martino, author of The New Reality. Praise for Dave Edlund's Peter Savage Novels "I would follow Peter Savage into any firefight." -James Rollins, New York Times bestseller of The Demon Crown "Edlund is right at home with his bestselling brethren, Brad Thor and Brad Taylor." - Jon Land, USA Today bestselling author of the Caitlin Strong series "Required reading for any thriller aficionado" -Steve Berry, New York Times and #1 international bestselling author "Action on almost every page" -Foreword Reviews "Plenty of heart-racing action" -San Francisco Book Review Read the whole series! • Crossing Savage - Book 1 • Relentless Savage - Book 2 • Deadly Savage - Book 3 • Hunting Savage - Book 4 • Guarding Savage - Book 5 • Lethal Savage - Book 6 The bloodied body of Harding Lovejoy is found in the woods at the Candleberry County Club in upstate New York. Due to a fluke in the property line, Connecticut State Trooper Eli Trucks finds himself in charge of the case. Amidst a surprising pattern of betrayal and duplicity, the battle lines are drawn between the law and the four families that run the Valley. Armed with his Sig Sauer P220 and a past he'd like to forget, Eli discovers that lust and larceny run rampant in the wealthy community that is determined to protect its public image rather than bring a killer to justice.
