Interdisciplinary Perspectives on Math Cognition Dec 29 2020 This is an anthology of contemporary studies from various disciplinary perspectives written by some of the world's most renowned experts in each of the areas

of mathematics, neuroscience, psychology, linguistics, semiotics, education, and more. Its purpose is not to add merely to the accumulation of studies, but to show that math cognition is best approached from various disciplinary angles, with the goal of broadening the general understanding of mathematical cognition through the different theoretical threads that can be woven into an overall understanding. This volume will be of interest to mathematicians, cognitive scientists, educators of mathematics, philosophers of mathematics, semioticians, psychologists, linguists, anthropologists, and all other kinds of scholars who are interested in the nature, origin, and development of mathematical cognition.

SHARPEN YOUR WITS Oct 19 2022 The book, SHARPEN YOUR WITS is a treasure trove of Mathematical and Logic teasers, which will make the reader's brain cells go buzzing, and solving these teasers will improve cognitive functions. Teasers have been compiled with lots of passion by the author. Critical thinking and problem-solving skills are crucial. School-going and college-going students as well as others who have the penchant for solving teasers will love such intriguing, mind-flexing, and brain-building puzzles. You don't require a high IQ nor do you have to be a genius to find the solutions to the problems. You require only a logical mind, clear thinking, and some basic maths solving skills. The amateurs, as well as experienced mathematicians and logicians, will find plenty of food for their grey matter. The author has been singularly focused on zealously hatching these teasers for over the past four decades. The teasers are tantalizing, amusing, and intricate to solve.
