The Middle Class in Emerging Societies Feb 25 2023 This volume examines the discursive construction of the meanings and lifestyle practices of the middle class in the rapidly transforming economies of Asia, Latin America, Africa and the Middle East, focusing on the social, political and cultural implications at local and global levels. While drawing a comparative analysis of what it means to be middle class in these different locations, the essays offer a connective understanding of the middle class phenomenon in emerging market economies and lay the groundwork for future research on emerging, transitional societies. The book

addresses three key dimensions: the discursive creation of the middle class, the construction of the cultural identity through consumption practices and lifestyle choices, and the social, political and cultural consequences related to globalization and neoliberalism.

Buddhist-Christian Dual Belonging Oct 21 2022 A growing number of people describe themselves as both Buddhist and Christian; but does such a self-description really make sense? Many people involved in inter-faith dialogue argue that this dialogue leads to a mutually transformative process, but what if the transformation reaches the point where the Buddhist or Christian becomes a Buddhist Christian? Does this represent a fulfilment of or the undermining of dialogue? Exploring the growing phenomenon of Buddhist-Christian dual belonging, a wide variety of authors including advocates, sympathisers and opponents from both faiths, focus on three key questions: Can Christian and Buddhist accounts and practices of salvation or liberation be reconciled? Are Christian theism and Buddhist non-theism compatible? And does dual belonging inevitably distort the essence of these faiths, or merely change its cultural expression? Clarifying

different ways of justifying dual belonging, contributors offer criticisms of dual belonging from different religious perspectives (Theravada Buddhist, Evangelical Reformed and Roman Catholic) and from different methodological approaches. Four chapters then carry the discussion forward suggesting ways in which dual belonging might make sense from Catholic, Theravada Buddhist, Pure-land Buddhist and Anglican perspectives. The conclusion clarifies the main challenges emerging for dual belongers, and the implications for interreligious dialogue.

The Evangelical Counter-Enlightenment Nov 22 2022 This contribution to the global history of ideas uses biographical profiles of 18th-century contemporaries to find what Salafist and Sufi Islam, Evangelical Protestant and Jansenist Catholic Christianity, and Hasidic Judaism have in common. Such figures include Mu?ammad Ibn abd al-Wa?hab, Count Nikolaus Zinzendorf, Jonathan Edwards, John Wesley, Jean-Jacques Rousseau, and Israel Ba'al Shem Tov. The book is a unique and comprehensive study of the conflicted relationship between the "evangelical" movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter-Enlightenment. Centered on the 18th century, the book reaches back to the third century for precedents and context, and forward to the

21st for the legacy of these movements. This text appeals to students and researchers in many fields, including Philosophy and Religion, their histories, and World History, while also appealing to the interested lay reader.

Latinos Facing Racism Oct 29 2020 Feagin and Cobas provide the first in-depth examination of the everyday racism faced by middle-class Latinos. Based on a national survey, we learn how a diverse group of talented Latinos Mexican Americans, Puerto Rican Americans, Cuban Americans, and others respond to and cope with the commonplace white racial framing and discriminatory practices. Drawing on extensive interviewing, the authors address the recurring discrimination of ordinary whites directed against Spanish speakers and individuals with presumed Latino phenotypes. These incidents occur in everyday encounters, such as when male and female Latinos travel or shop. The book also chronicles the mistreatment that Latinos face from immigration officials when they cross US borders and from the police when they are racially profiled outside Latino

areas. Critical and conforming Latino responses to recurring white discrimination are also extensively examined, as well as the diverse Latino reactions to remedial programs like affirmative action and to the ideal of assimilation into the proverbial US melting pot. "

What Does the Bible Say? Dec 31 2020 This

book is a collaboration between a biblical scholar (Mary Ann Beavis) and a practical theologian (HyeRan Kim-Cragg) who are concerned with the way that the Bible is portrayed and interpreted in popular culture, including but not limited to the movies. This concern points to a need for a conversation, examining what the Bible actually says, in order to uncover transformations and distortions of the biblical stories in the wider culture--including Christian culture. Our conversation is counter-cultural, not in an oppositional way, but taking an alternative posture that aims to provide different insights by drawing from and closely looking at the Bible. The chapters take a Christian canonical approach, articulating "what the Bible says" (and doesn't say) with regard to culturally pervasive themes such as sin and salvation, Christ and Antichrist, heaven and hell, in contrast to popular understandings as disseminated in (primarily) film, advertising, television, etc. We hope that together we will open up fertile academic, ecclesial, and secular space for disclosing loaded cultural and ideological views towards offering positive and intriguing insights embedded in the Bible.

I have published two books about the student movement: *The archives of violence* (1998) and *From Tlatelolco to Ayotzinapa* (2015) I returned to the abundant literature and reinterpreted what happened with the role played by the CIA to better understand what happened with the student movement and, in particular, with the tragic events of October 2.

Intelligence Analysis in the Digital Age

Mar 14 2022 This book examines intelligence analysis in the digital age and demonstrates how intelligence has entered a new era. While intelligence is an ancient activity, the digital age is a relatively new phenomenon. This volume uses the concept of the "digital age" to highlight the increased change, complexity, and pace of information that is now circulated, as new technology has reduced the time it takes to spread news to almost nothing. These factors mean that decision-makers face an increasingly challenging threat environment, which in turn increases the demand for timely, relevant, and reliable intelligence to support policymaking. In this context, the book demonstrates that intelligence places

greater demands on analysis work, as the traditional intelligence cycle is no longer adequate as a process description. In the digital age, it is not enough to accumulate as much information as possible to gain a better understanding of the world. To meet customers' needs, the intelligence process must be centred around the analysis work - which in turn has increased the demand for analysts. Assessments, not least predictions, are now just as important as revealing someone else's secrets. This volume will be of much interest to students of intelligence studies, security studies, and international relations.

Postcolonial Overtures May 04 2021

Postcolonial Overtures explores the importance of sound in contemporary Northern Irish writing, focusing on the work of three canonical poets: Ciaran Carson, Derek Mahon, and Paul Muldoon. Obert argues that these poets respond to what Edward Said calls "geographical violence"—to the stratification of the North's visual spaces; to the sectarian symbols splashed across Belfast and beyond—by turning from the eye to the ear, tentatively remapping place in acoustic space. Carson, for instance, casts Troubles-era Belfast as a "demolition city," its landmarks "swallowed in the maw of time and trouble," and tries to compensate for this inhospitality by reimagining landscape as soundscape, an immersive auditory field.

This strategy suggests sound's political and affective potential: music, accent, and even comfortingly familiar white noise can help subjects, otherwise unmoored, feel at home. Drawing on a diverse range of fields, Obert devotes two chapters to the examination of each poet's work, allowing room for both in-depth formalist readings and contextual and theoretical understandings of the poems and their reverberating effects.

[Call] - Responding and the Worlds

Inbetween Feb 01 2021 The book is a reading of numerous contemporary continental philosophers (Badiou, Deleuze and Guattari, Laruelle and Derrida amongst others) and bringing them into conversation with each other around various ethical and political challenges of living in capitalist worlds. What can contemporary continental philosophy offer with regards to the questions of decolonial thinking, the challenges of identity politics, the formation of political identities in response to the dominant norms in the context of the struggles of victims of these norms?

Martin Buber's Myth of Zion Jun 17 2022 The book provides an insightful study of the Jewish theologian Martin Buber, and combines a review of the unconventional Zionism he

proposed with a sensitivity to myth as the basis of an inclusive civil religion. The multifaceted nature of this work examines Buber's embrace of myth, and his application of myth to both biblical studies and political theory. It pays special attention to the way Buber's thinking about Zion applied to religious ethical issues such as ecology, education, ritual, and, as a continuing theme throughout the book, to the conflict between those Buber called Jews and Arabs in the land of Palestine.

Gothic Imagination in Latin American Fiction and Film Jul 18 2022 This work traces how Gothic imagination from the literature and culture of eighteenth- and nineteenth-century Europe and twentieth-century US and European film has impacted Latin American literature and film culture. Serrano argues that the Gothic has provided Latin American authors with a way to critique a number of issues, including colonization, authoritarianism, feudalism, and patriarchy. The book includes a literary history of the European Gothic to demonstrate how Latin American authors have incorporated its characteristics but also how they have broken away or inverted some elements, such as traditional plot lines, to

suit their work and address a unique set of issues. The book examines both the modernistas of the nineteenth century and the avant-garde writers of the twentieth century, including Huidobro, Bombal, Rulfo, Roa Bastos, and Fuentes. Looking at the Gothic in Latin American literature and film, this book is a groundbreaking study that brings a fresh perspective to Latin American creative culture.

Jellyfish Apr 03 2021

Faith and Modern Thought Feb 13 2022 Get the full picture! Understand the whole story! Faith and Modern Thought is a jargon-busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern

world, especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired. Tim Hull provides the wider intellectual picture, the fuller philosophical story in which modern theology was forged. After an engaging introduction to the European Enlightenment and the cultural crisis it triggered, the stage is set to understand the essence of modern theology. From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored, exposing a deep-rooted indebtedness to the Enlightenment tradition.

Selected Poems of Rubén Darío Aug 19 2022
Toward the close of the last century, the poetry of the Spanish-speaking world was pallid, feeble, almost a corpse. It needed new life and a new direction. The exotic, erratic, revolutionary poet who changed the course of Spanish poetry and brought it into the mainstream of twentieth-century Modernism was Félix Rubén García Sarmiento (1867-1916) of Nicaragua, who called himself Rubén Darío. Since its original publication in 1965, this edition of Darío's poetry has made English-speaking readers better acquainted with the poet who, as Enrique

Anderson Imbert said, "divides literary history into 'before' and 'after.'" The selection of poems is intended to represent the whole range of Darío's verse, from the stinging little poems of *Thistles* to the dark, brooding lines of *Songs of the Argentine and Other Poems*. Also included, in the Epilogue, is a transcript of a radio dialogue between two other major poets, Federico García Lorca of Spain and Pablo Neruda of Chile, who celebrate the rich legacy of Rubén Darío.

IN DENIAL: WHITE SLAVERY IN THE VIRGINIA COLONY, 1607 TO 1619 AD + 'REASONABLE CAUSE FOR REPARATIONS' FOR DESCENDANTS OF AFRICAN SLAVES Aug 07 2021 HEAR YE, HEAR YE, HEAR YE !!! From all Rooftops & Skyscrapers around the world: I hold these truths to be self-evident that all the Virginia Colonial Records I read (London Court Records & the Virginia Company of London) were used to reflect the hard facts exposed in the eBooks

"Indentured Servitude Unchained" and "Novemberteenth / Aprilteenth" to the best of my abilities for expression, and this paper is its supplement. Whereas, this document serves as the approval from Our Billions of Celestial Ancestors who came before Us to make these earth-shaking announcements to the World. Whereas, the Expose' of these hidden facts is America's "Worst kept Secret" for 400 years. Whereas, the Virginia Colonial Court and Company (Virginia Company of London) Records validate the authenticity of these events/documents for: •Documenting the 1st 12-year period of the Virginia Colony, 1607 to 1619 AD, and the next 4 years, 1620 to 1624. •Understanding why and how the idea of a System for Indentured Servitude was conceived and officially installed in the Virginia Colony that commenced in 1619 AD; and •Understanding who the intended Indentured Servant really was during this 1st 12-year period. Whereas, other Professionals have measured and assessed such authentic evidence and I rendered their conclusions to the facts reflected in this research paper/eBook: "In Denial: White Slavery in the Virginia Colony, 1607 to 1619 + Reasonable Cause for Reparations for

Descendants of African Slaves;" Whereas, within this 1st 12-year period there comprised only White (European) Slaves of not more than 2,000 colonists. Whereas, based upon these noted Records, You (especially our Younger Generations), now, are Highly Justified to CLAIM that the majority years of the 1st 12-period of the Virginia Colony indulged itself with the practice of Slavery upon its inhabitants using harsh measures, Nine-Consecutive Years of Slavery while Three-Years were consumed with Consistent Starvation. Whereas, the Survivors' Testimonial Document of 1624 AD is archived in the Colonial Records of Virginia and set forth herein this paper. Whereas, the Survivors' Freedom Document dated November 1618 (Emancipation Proclamation if you will), officially called "Instructions to George Yeardley," declared absolute freedom to all the Survivors (roughly 400 inhabitants) has been hidden from the history books of American Public Education for over 400 years this past November 2018; this document was delivered to the Survivors of this Slave Colony in April 1619 AD. Whereas, it be known that the next 4 years, 1620 to 1624 AD, authenticated the beginning of a structured

Institution/System for Indentured Servitude, distribution of acreage [Reparations], and why and how the Virginia Company of London was dissolved. Whereas, false narratives were promoted about the Virginia Colony and King James censored the Virginia Company of London Records. Whereas, the continued denial of Reparations to Descendants of African Slaves has hit the mark of 156 years to date. Whereas, the eBooks "Indentured Servitude Unchained" and "Novemberteenth / Aprilteenth" and/or this research paper contains separately almost 90 questions for one to use for assignments to pursue the answers contained; and Whereas, a Script for a Screenplay has been prepared for a movie/film of this 1st 12-year period of the Virginia Colony with a sneak preview of its timeline contained in this research paper. Now, Therefore, I, George Rainey, Jr. (Elder) do proclaim the aforementioned statements of the authenticity of factual events/documents stand, henceforth, certified because such facts were retrieved from the Colonial Records of Virginia.

Church at Church Jun 05 2021 Jean-Jacques von Allmen's work was animated by three key insights: the Church both learns and becomes what it truly is when it gathers to worship;

worship tells the story of God's salvation history and invites God's people into it; and by doing so, the church offers the world both a stern warning and a hopeful promise. The Swiss Reformed pastor and professor is among the most admired liturgical theologians of the twentieth century, but his work is largely and lamentably unknown to most worship leaders. In *Church at Church*, Ron Rienstra provides an introduction to this important thinker. He offers methodological and biographical context and then explores von Allmen's most generative insights concerning the church as it engages in its most foundational activity: worship. Viewed through the lens of the Nicene marks, Rienstra's exploration yields the outlines of a 'liturgical ecclesiology', a way to help the church think more deeply about its identity and to help its leaders shape the worship they prepare and lead today.

Financial Capital in the 21st Century May 16 2022 The book's central theme is to develop a new theory of speculative capital related to other forms of capital, the world market, and the state. Unlike most Marxist and heterodox theories, the book distinguishes credit and fictitious capital

from speculative capital to show its hegemony today in the capital markets. Speculative capital structures and also controls the so-called "real capital." The method is Marxist while also incorporating material from contemporary Marxist and heterodox authors like John Milios, Robert Meister, Tony Norfeld, Li Puma, Harald Strauß, Michael Heinrich, Suhail Malik, Bichler/Nitzan and Ellie Ayache. Offering a comprehensive study of the logic and mode of existence of capital in the 21st century, the book will be of interest to academics and students of monetary and financial economics alongside political economy.

Latin American Gothic in Literature and Culture Dec 11 2021 This book explores the Gothic mode as it appears in the literature, visual arts, and culture of different areas of Latin America. Focusing on works from authors in Mexico, Central America, the

Caribbean, the Andes, Brazil, and the Southern Cone, the essays in this volume illuminate the existence of native representations of the Gothic, while also exploring the presence of universal archetypes of terror and horror. Through the analysis of global and local Gothic topics and themes, they evaluate the reality of a multifaceted territory marked by a shifting colonial and postcolonial relationship with Europe and the United States. The book asks questions such as: Is there such a thing as "Latin American Gothic" in the same sense that there is an "American Gothic" and "British Gothic"? What are the main elements that particularly characterize Latin American Gothic? How does Latin American Gothic function in the context of globalization? What do these elements represent in relation to specific national literatures? What is the relationship between the Gothic and the Postcolonial? What can Gothic criticism bring to the study of Latin American cultural manifestations and, conversely, what can these offer the Gothic? The analysis performed here reflects a body of criticism that understands the Gothic as a global phenomenon with specific manifestations in particular territories

while also acknowledging the effects of "Globalgothic" on a transnational and transcultural level. Thus, the volume seeks to open new spaces and areas of scholarly research and academic discussion both regionally and globally with the presentation of a solid analysis of Latin American texts and other cultural phenomena which are manifestly related to the Gothic world.

Discipling The Next Generation Jan 24 2023
The challenge that Victory Outreach International (VOI) is facing at this present time is the transitioning of new leadership. VOI started in the turmoil of the sixties, when young people of the United States were confused and searching for identity and purpose in life. They were protesting and demonstrating their ideologies on campuses and in communities throughout the nation.¹ In 1967, in the black ghettos of the country, came the greatest urban riots of American history.

Theologies of Land Oct 09 2021 The Crosscurrents series highlights emerging theologies and biblical interpretations of the Majority World and minoritized communities. The first volume in the series elaborates theologies of land, a theme often missing or ignored by the churches and theologians, especially in the Global North. In this volume, four authors who represent Palestinian, First Nations, Latinx, and South African communities examine the intricate relationship among land(scape), migration, and identity. Together with a Malaysian Chinese, the authors deliberate on the complex issues arising out of political domination, as well as humanity's conquest and abuse of land that create unjust space, landless people, and the broken landscape of God's creation.

A Theology of Nature Jul 06 2021 Nowadays we in the church hear much of the task given to us to be good stewards over God's creation. We are to treat the creation as a fragile, vulnerable artifact given us by God, to be cherished and taken special care of. The animal and plant kingdoms are precious treasures to be maintained in unspoiled beauty, preserved from the corrupting hand of civilization. But how much of this is derived from Scripture, and how much from romantic secular philosophy? To what extent does the Bible speak of man as steward of the planet? And to what extent does it validate the view of nature as unspoiled perfection marred by humankind's intervention? This view of nature is based on a philosophical presupposition: the balance of nature. Nature is considered to be poised in a delicate and fragile equilibrium, the slightest disturbance of which will have the direst consequences. But how valid is this presupposition? It is of the utmost consequence that we recognize this presumption. It is what motivates the approach to the environmental crises that we confront. Climate change is one of the major themes viewed - indeed, prejudged - through the spectacles of nature in balance. The

Amazon rain forest is another. Global megafire, another allegedly unprecedented phenomenon, is a third. All of these are here weighed in the balance. This book adopts a critical stance to received notions. Its method for doing so, sad to say, is fairly unique in our day and age. For it uses both Scripture and modern science to derive a view of nature. And these two are brought into fruitful cooperation, engendering a synergy that once was the hallmark of the Christian scientific endeavor. What does the science of ecology have to tell us about nature in balance? What does climate history tell us about climate change? What is the age of the earth, and how is it important to these questions? What is the role of carbon dioxide? How important is biodiversity? How serious is the threat of mass extinction? What does the apostle Paul say about the original condition of the creation? What was the Garden of Eden really, and what role did Adam play in it? What kind of steward was he, and how did this change after the fall? What does the tower of Babel tell us about stewardship? What is the place of globalization versus nationhood in carrying out the divine command to exercise dominion?

What is the role of the church? What is natural law? And the greatest question of all: why did God create things the way He did? These and other questions are answered here, but as important, there is serious discussion of them in terms of both science and Scripture. Those who cherish a "deep dive" into the subject matter will derive the most benefit from it. Those who do not are advised to seek out a more simplistic treatment, although in doing so, they may be depriving themselves of the benefit of serious analysis. In writing this book, the author has brought to bear not only his years of study in history, philosophy, economics, law, and theology, but also his degree work and professional experience in the field of forestry.

Adapting Superman Jun 24 2020 Almost immediately after his first appearance in comic books in June 1938, Superman began to be adapted to other media. The subsequent decades have brought even more adaptations of the Man of Steel, his friends, family, and enemies in film, television, comic strip, radio, novels, video games, and even a musical. The rapid adaptation of the Man of Steel occurred before the character and storyworld were fully developed on the comic

book page, allowing the adaptations an unprecedented level of freedom and adaptability. The essays in this collection provide specific insight into the practice of adapting Superman from comic books to other media and cultural contexts through a variety of methods, including social, economic, and political contexts. Authors touch on subjects such as the different international receptions to the characters, the evolution of both Clark Kent's character and Superman's powers, the importance of the radio, how the adaptations interact with issues such as racism and Cold War paranoia, and the role of fan fiction in the franchise. By applying a wide range of critical approaches to adaptation and Superman, this collection offers new insights into our popular entertainment and our cultural history.

Basic Concepts of Clinical Electrophysiology in Audiology Sep 27 2020
Basic Concepts of Clinical Electrophysiology in Audiology is a revolutionary textbook, combining the research and expertise of both distinguished experts and up-and-coming voices in the field. By taking a multidisciplinary approach to the subject, the editors of this graduate-level text

break down all aspects of electrophysiology to make it accessible to audiology students. In addition to defining the basics of the tools of the trade and their routine uses, the authors also provide ample presentations of new approaches currently undergoing continuing research and development. The goal of this textbook is to give developing audiologists a broad and solid basis of understanding of the methods in common or promising practice. Throughout the text, individual chapters are divided into "episodes," each examining a facet of the overarching chapter's topic. With different experts handling each episode, readers are exposed to outstanding professionals in the field. This text singularly stitches together the chapters and their episodes to build from foundational concepts to more complex issues that clinicians are likely to face on their road to full clinical competency. As collections of episodes, the writers and editors thus endeavor to present a series of stories that build throughout the book, in turn allowing readers to build a broader interest in the subject. Key Features * Heads Up sections in each chapter introduce more advanced content to expose readers to what lies beyond the basic level

and further enhance the main chapter content and "entertainment value" * Take home messages at the end of each chapter serve to focus the reader's attention, encourage review, and discourage superficial learning by "just reading the abstract" * More than 450 innovative illustrations use combinations of panels, insets, and/or gray tone to facilitate reader understanding, optimize portrayal of data, and unify concepts across chapters * Numerous case studies and references to practical clinical issues and results are included throughout the book * Keywords are highlighted in-text to improve both attention and retention of critical terms and ease of returning to review them

A Companion to Research in Teacher Education Feb 19 2020 This state-of-the-art Companion assembles and assesses the extant research available on teacher education and provides clear guidelines on future directions. It addresses an important need in a collection that will be of value for teachers, teacher educators, policymakers and politicians. There has been little sustained, long-term or systematic research to provide empirical support for the broad aspects of teacher education policy, largely

because such research has been chronically underfunded and based on traditional practitioner knowledge. Many of the changes to teacher education are contentious and yet are occurring in rapid succession. These policies and movements have important consequences for education, teacher quality and the future of the teaching profession. At the same time, the policies and initiatives that support these changes seem to be based more on ideology, business interests and tradition than on research and empirical findings. The nature, quality and effectiveness of teacher preparation have increasingly become a central focus for education policy worldwide in a fiercely argued debate among governments, think-tanks, world policy agencies, education researchers and teacher organisations.
