Optimal Linear Controller Design for Periodic Inputs proposes a general design methodology for linear controllers facing periodic inputs which applies to all feedforward control, estimated disturbance feedback control, repetitive control and feedback control. The design methodology proposed is able to reproduce and outperform the major current design approaches, where this superior performance stems from the following properties: uncertainty on the input period is explicitly accounted for, periodic performance being traded-off against conflicting design objectives and controller design being translated into a convex optimization problem, guaranteeing the efficient computation of its global optimum. The

potential of the design methodology is illustrated by both numerical and experimental results. Materials management has transitioned to SAP S/4HANA--let us help you do the same! Whether your focus is on materials planning, procurement, or inventory, this guide will teach you to configure and manage your critical processes in SAP S/4HANA. Start by creating your organizational structure and defining business partners and material master data. Then get step-by-step instructions for defining the processes you need, from creating purchase orders and receiving goods to running MRP and using batch management. The new MM is here! Material master data Business partner master data Batch management Purchasing Quotation management Material requirements planning (MRP) Inventory management Goods issue/goods receipt (GI/GR) Invoicing Valuation Document management Reporting The volumes in this series contain studies in computational vision or image understanding, and explain the computations that underlie the extraction and use of visual information by both biological and artificial systems. Reprints of seminal studies are included along with the original articles. Configure the FI and CO Modules to Meet All Your Business Requirements Configuring SAP R/3 FI/CO is the only book of its kind: a detailed, practical guide to configuring R/3's two most popular modules. Written by the experts responsible for R/3 configuration in a Fortune 200 company, it provides detailed instructions and examples for all the Financial and Controlling submodules—information that will help you make good on your company's sizable investment. Coverage includes: FI Enterprise Structure General Ledger Substitutions and Validations Automatic account assignments Accounts Payable Accounts Receivable Credit Management Lockbox CO Enterprise Structure Cost Element Accounting Cost Center Accounting Internal Orders CO settlement Profitability Analysis (CO-PA) Profit Center Accounting Investment Management Visit this book's companion Web site at www.virtuosollc.com for additional coverage of FI/CO configuration techniques. This bestselling author demystifies the latest version of SAP Financial Accounting (FI) through an innovative and easy-to-understand Q & A format, using 440 + questions and over 180 illustrations and screenshots. The book explains the important concepts / terms used in FI, provides you with several consulting, configuration, and usage tips on a variety of application components within FI. Separate chapters on SAP FI Tables and SAP FI Transaction Codes will help you navigate this complex software. This book will be an invaluable guide to everyone in the SAP community: beginners, end-users, programmers, and trainers. Features: * Features an easy-to-understand Q & A format with configuration / consulting / usage tips * Includes screen-shots from the

latest version of SAP ERP, separate chapters on SAP FI Transaction Codes and SAP FI Tables * Uses over 450 questions, 200 screen shots and illustrations, 430 FI transactions, and 195 SAP FI tables to help master this complex software *

Includes companion files with FI templates, short cuts, and figures (including 4 color) from the book This guide dives into the basic SAP S/4HANA configuration settings for FSCM Credit Management. Beginners seeking to better understand the features, as well as consultants looking for information on how to configure the system, will find the information they need. Each chapter contains specific knowledge for both business users and technical support staff. What exactly is a Business Partner and why do you need one? Explore the Business Partner master record and its relationship to the older master data model. Review settings required in the SAP customizing menu (IMG) for organizational structure and master data, as well as credit limit checking. Walk through the documented credit decision process in SAP. Review integration points with Accounts Receivable (FI-AR) and Sales and Distribution (SD) in depth. Learn more about additional functionality available including credit limit requests and credit exposure updates. - Basic configuration settings - Integration points with FI-AR and SD - Organizational structure and master data - Business Partner master record This book is a clear and practical Essentials guide that teaches you how to configure account determination in SAP ERP. You'll learn about the various account determination techniques in each component for generating General Ledger postings, including AR/AP, tax transactions, bank transactions, human capital management, and materials management. The Work provides step-by-step instructions on how to configure account determination, and in this new edition, each chapter provides real-world examples, business processes and scenarios, useful screenshots, and practical tips to help you understand and master account determination. If you're responsible for implementing the account determination functionality, this is your one-stop, must-have guide. Highlights: Account determination techniques General Ledger transactions Accounts Receivable/Accounts Payable transactions Tax transactions Bank transactions Asset transactions Travel expense transactions Sales and purchasing Inventory transactions Payroll transactions Technical references Tips and tricks In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a

daunting exercise, however, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn

- In-depth coverage of FI-AA syllabus
- How to configure FI-AA accounting in SAP
- How to integrate FI-AA accounting with other SAP modules
- How to explain the functionalities of SAP FI-AA

Knowledge gained from real-world practical examples and case studies

Who This Book Is For

The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting. Accounting standards are changing! Get up to speed and dive into the fundamentals of SAP Revenue Accounting. Review the basic legal principles that determine the reporting of revenues and common technical challenges, as well as the legal basis for ASC 606. Walk step-by-step through the revenue recognition process according to ASC 606. Get best practices on how to prepare your system for an implementation and get a list of activities required to implement the Revenue Accounting and Reporting (FI-RA) business add-on in SAP ERP. Identify the three steps required to transition from the old to the new revenue recognition standard. Review the impact of the Business Rule Framework Plus (BRFplus). Get tips and best practices for data consistency and reporting. By using detailed examples, tips, and screenshots, this book covers critical accounting standard topics including:

- ASC 606 statutory requirements
- Integration between SAP SD, PS, FI-RA, and FI-GL
- Troubleshooting data migration challenges
- BRFplus in revenue accounting

This guidebook for technical recruiters is an essential resource for those who are serious about keeping their skills up-to-date in the competitive field of technical resource placement. Recruiting can be challenging with little background in technology, technology roles, or an understanding of how the two interact. In this book, you will learn the fundamentals of technology from basic programming terms, to database vocabulary, network lingo, operating system jargon, and other crucial skill sets. Topics covered include:

- What questions to ask candidates
- How to determine when someone is embellishing his or her skills
- Types of networks and operating systems
- Software development strategies
- Software testing
- Database job roles
- And much more!

Armed with indispensable information, the alphabet soup of technology acronyms will no longer be intimidating, and you will be able to

analyze client and candidate requirements with confidence. Written in clear and concise prose *Technology Made Simple for the Technical Recruiter* is an indispensable resource for any technical recruiter. This book constitutes the refereed proceedings of the 36th Conference on Current Trends in Theory and Practice of Computer Science, SOFSEM 2010, held in Špindleruv Mlýn, Czech Republic, in January 2009. The 53 revised full papers, presented together with 11 invited contributions, were carefully reviewed and selected from 134 submissions. SOFSEM 2010 was organized around the following four tracks: Foundations of computer science, principles of software construction, Data, knowledge, and intelligent systems and Web science. The Yau-Tian-Donaldson conjecture for anti-canonical polarization was recently solved affirmatively by Chen-Donaldson-Sun and Tian. However, this conjecture is still open for general polarizations or more generally in extremal Kähler cases. In this book, the unsolved cases of the conjecture will be discussed. It will be shown that the problem is closely related to the geometry of moduli spaces of test configurations for polarized algebraic manifolds. Another important tool in our approach is the Chow norm introduced by Zhang. This is closely related to Ding's functional, and plays a crucial role in our differential geometric study of stability. By discussing the Chow norm from various points of view, we shall make a systematic study of the existence problem of extremal Kähler metrics. This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You'll learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers: - Get an overview of SAP Financials configuration - Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration - Learn how to create, define, and assign company codes and chart of accounts - Obtain hands-on instruction based on examples and screenshots Interested in learning more about the changes in SAP S/4HANA Finance? Learn what is meant by the merge of financial accounting and controlling in SAP S/4HANA. Discover how the accounting structure and tables have changed and what the implications are. Walk through each area of financial accounting and

identify what has changed, along with relevant configurations. Take a look at how new general ledger transactions work in SAP S/4HANA and find out what the universal journal is. Explore important changes to asset accounting and identify updates to the underlying table structure to allow for real-time posting between asset accounting and the general ledger. Learn more about the preparation and migration tools available.

- Key changes to financial accounting and structure in SAP S/4HANA Finance - New general ledger structure in the universal journal - Master data changes in G/L accounts and the business partner - SAP S/4HANA preparation and migration tools

Who This Book Is For

The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting. This bestselling guide for business users shows you how to run Financial Accounting in SAP ERP. -- Over the last few years, financial statement scandals, cases of fraud and corruption, data protection violations, and other legal violations have led to numerous liability cases, damages claims, and losses of reputation. As a reaction to these developments, several regulations have been issued: Corporate Governance, the Sarbanes-Oxley Act, IFRS, Basel II and III, Solvency II and BilMoG, to name just a few. In this book, compliance is understood as the process, mapped not only in an internal control system, that is intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives (in particular,

efficiency and profitability). The current literature primarily confines itself to mapping controls in SAP ERP and auditing SAP systems. Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal compliance to include efficiency and profitability and then well beyond, because a basic understanding of the processes involved in IT-supported compliance management processes are not delivered along with the software. Starting with the requirements for compliance (Part I), he not only answers compliance-relevant questions in the form of an audit guide for an SAP ERP system and in the form of risks and control descriptions (Part II), but also shows how to automate the compliance management process based on SAP GRC (Part III). He thus addresses the current need for solutions for implementing an integrated GRC system in an organization, especially focusing on the continuous control monitoring topics. Maxim Chuprunov mainly targets compliance experts, auditors, SAP project managers and consultants responsible for GRC products as readers for his book. They will find indispensable information for their daily work from the first to the last page. In addition, MBA, management information system students as well as senior managers like CIOs and CFOs will find a wealth of valuable information on compliance in the SAP ERP environment, on GRC in general and its implementation in particular. SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both

configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP’s view of the module’s key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO. Take an in-depth look at how basic financial accounting processes work in SAP S/4HANA in this practical guide. Learn about the SAP Fiori launchpad and how to find your way around the many apps available for finance with the help of screenshots and examples. Understand the finance organizational structure and master data and discover some of the SAP Best Practices for finance such as accounts payable and receivable, credit management, asset accounting, cash and bank management, and closings. Explore different ways to enter and upload G/L journal entries and what is meant by the Universal Journal. Run through the bank postings and different options for the bank statements. Go deeper into the structure of asset accounting, including the chart of depreciation, depreciation areas, asset classes, and depreciation methods. Learn about multidimensional reporting, KPIs, and the various analytical apps supplied with SAP S/4HANA.

- Financial accounting processes in SAP S/4HANA - Finance organizational structure, key financial master data - Daily transactions using SAP Fiori apps - SAP Fiori apps for displaying and reporting financial data Every day, organizations around the world use SAP (System Applications and Products in Data Processing) client/server systems. The basic enterprise resource planning software package offered by SAP consists of various modules that are specifically designed to direct a variety of important business functions: Financials (FI), Sales and Distribution (SD), Materials Management (MM), Controlling (CO), Asset Management (AM), Production Planning (PP), and Human Resources (HR). mySAP FI Fieldbook offers information technology professionals an in-depth look at the Financial (FI) module of this high-powered software. Author Thomas H. Spitters discusses a number of topics that will keep any company's SAP system running optimally, including strategies to guarantee: High availability High performance Data security mySAP FI Fieldbook is ideal for the new project team

member, financial manager or controller, or any staff member in need of some immediate orientation with SAP's FI module. Discover everything you need to know about the powerful mySAP FI accounting function within this wide-reaching computing environment! When the stakes are high and the job is complex, rely on this complete guide to implementing Financial Accounting. Master the processes, subcomponents, and tools you need and align your FI system with unique business requirements, from intricate system configuration to versatile mobile apps. This book details step-by-step instructions and examples for integrating FI with CO, SD, PP, and MM. Make your FI system count

This book offers a comprehensive introduction to SAP ERP Controlling (CO). You will learn the basic fundamentals of the organizational structure, master data, and functions of SAP Controlling, including overhead controlling, product costing, month-end closing, and reporting. If you would like to understand the basic fundamentals of SAP Controlling, with examples based on a case study approach, this book is for you! Using a fictional chocolate manufacturing company case study, you will learn fundamentals based on several day-in-the-life scenarios of various key functions such as cost planning, production controlling, actual costing, and information systems. Get detailed information on how SAP CO integrates with other SAP modules and obtain insight into the different functional areas typically used in manufacturing organizations. Dive into SAP ERP master data elements and get tips on how to maintain consistent and accurate data. Review the various planning methods available and get an overview of cost center planning, including overhead planning and labor cost planning. Understand how SAP Material Ledger can be used to accurately determine costs. Identify how actual costs are booked and absorbed. By using a detailed case study, practical examples, tips, and screenshots the author brings readers new to SAP CO quickly up to speed on the fundamentals.

- Cost center and product cost planning, actual cost flow
- Best practices for cost absorption using Product Cost Controlling
- Month-end closing activities in SAP Controlling
- Examples and screenshots based on a case study approach

"Get your SAP S/4HANA Finance configuration right the first time! Whether you're running a new implementation or transitioning from SAP ERP, this comprehensive guide walks you through each project task. Start by setting up an organizational structure and defining global master data. Next, follow step-by-step instructions organized by functional area: general ledger, AP, AR, controlling, margin analysis, predictive

accounting, and more. Your new system awaits!"-- Master the most important issues involved in designing and configuring an SAP ERP Financials implementation using this must-have reference. You'll find information on everything from the general areas of SAP ERP Financials and how they fit in the SAP landscape, to how the new SAP General Ledger can work for you. This book is an invaluable reference that covers the skills, tools, and knowledge you need for you to be able to understand and configure your SAP ERP Financials system. This new edition is updated for SAP ERP 6.0, Enhancement Package 4. Highlights: Enterprise Structure The General Ledger Integration Areas Accounts Payable Accounts Receivable Asset Accounting Controlling Reporting Data Migration Cash Journals Down Payments Substitutions and Validations in Asset Accounting Periodic Allocations Distributions and Assessments Foreign Currency Revaluation Year-End Closings Preparing consolidated financial statements for an enterprise with a parent and one or more subsidiaries requires a detailed review of underlying transactions in order to properly reflect results and financial position. For large, integrated, and multinational organizations, likely with millions of transactions, it is imperative that the financial accounting software facilitate this process. This expertly written guide focuses on leveraging SAP S/4HANA Finance for group reporting. Explore key functionality and how the universal journal has led to the evolution of the group reporting solution. Using a detailed case study, the author discusses configuration and master data and walks the reader through the period-end process for consolidation and explores reports using financial transactions that have already been entered into SAP S/4HANA Finance for group reporting. Explore reports delivered with SAP S/4HANA Finance for group reporting. This book is targeted at both finance professionals and the functional consultants who perform the configuration and execution of processes for preparing consolidated financial statements. By using practical examples, tips, and screenshots, this book covers: - SAP S/4HANA Finance for group reporting and the universal journal - Configuration and master data - Period-end process for consolidation - Reporting and analysis This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text. It's

clear that FICO is one of the most important areas in SAP--and finding answers can be difficult. This guide is helpful in assessing FICO skills and evaluating candidates for a job. The authors offer a learning resource to anyone who wishes to become a mobile developer using the Android platform. The text covers application design, development, debugging, packaging, distribution & much more. A guide to achieve a highest level of SAP S/4 HANA, Central Finance and Group Reporting KEY FEATURES ? In-depth demonstration of SAP S/4HANA 2020, 1909, and 2021 fundamentals. ? Includes graphical illustrations for Migration Cockpit commands and methods. ? Hands-on practice on Fiori, BPC, SAP S/4 HANA Central Finance and Group reporting. DESCRIPTION This book will guide you through the process about what you need to know and help you perform at your highest level to achieve SAP S/4 HANA and some of the best practices available today. This book can assist you in acing employment interviews. This book provides an in-depth practical illustration of SAP S/4HANA 2020, 1909, and 2021 fundamentals with several examples. It contains graphical demonstrations and visual descriptions of the commands and methods available in the SAP S/4 HANA Migration Cockpit. It includes thorough hands-on practice showcasing Fiori, BPC, SAP S/4 HANA Central Finance, and Group reporting subjects using SAP S/4HANA standards. Many applications and industry-wide projects are included in the book. After reading this book, you will be able to reliably perform Basis, Security, SD, MM, PP, FICO, and HCM operations, as well as define complicated tasks in SAP S/4 HANA from the very first day. WHAT YOU WILL LEARN ? Perform Basis, Security, SD, MM, PP, FICO, and HCM processes in SAP S/4 HANA. ? Forecast and monitor progress throughout the SAP S/4HANA deployment process. ? Administration, implementation, and authorisation of SAP S/4 HANA systems from start to finish. ? Enterprise-wide backup, restore, and monitoring of SAP HANA databases. ? Leverage Fiori apps to carry out SAP S/4 HANA tasks. WHO THIS BOOK IS FOR This book is meant for S/4 HANA consultants and project managers as well as those working in other fields related to SAP S/4 HANA. If you read this book, you will be well-versed in every step of the SAP S/4HANA project development lifecycle. TABLE OF CONTENTS 1. SAP S/4 HANA 2020, 2021, 1909 Interview questions. 2. Lessons learnt and pragmatic approach – SAP S/4 HANA Interview questions. 3. SAP S/4 HANA Data Migration Interview questions. 4. Interview questions and answers on BPC, SAP S/4 HANA Central Finance and Group reporting. This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One

of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author's humble attempt to bridge the gap by providing real life scenarios along with technical details. This updated 2nd edition offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Review the differences between ECC and SAP S/4HANA and user interface changes with Fiori. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. Gain in-depth knowledge of the concepts, objects, and functionality available in PCA in SAP ERP, including the relevant master data set-up, actual data flows, planning scenarios, and reporting options. Clarify the differences between PCA and Margin Analysis and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. Learn more about the new APP Manage Profit Center Group. Explore planning options in SAP S/4HANA, including ACDOCP universal planning table. Take a closer look at on-premise reporting options for profit centers in SAP S/4HANA, including APPS and CDS views available in the Query browser. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. -

Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL Reporting for Profit Center Accounting (PCA) This book is written for SAP Controlling (CO) professionals who want to learn expert tips to optimize their system performance for configuration, reconciliation, and reporting. Using a fictional chocolate manufacturing case study, each tip provides detailed information on aspects of the functionality, how it can help you, why you should use it, and how

to use it including SAP configuration steps. Obtain best practices for optimizing cost allocation methods, expediting material ledger close, and utilizing cost center overhead charges. Troubleshoot product costing messages and find out how to prevent GL account overrides during inventory posting transactions. Walk through best practices for effectively maintaining master data and standard costing methods. By using an integrated practical example and screenshots, the author informs readers on how to get the most out of their SAP ERP system. - Optimize SAP ERP Controlling configuration, reconciliation, and reporting - Transaction processing tips to ensure accurate data capture - Instructions for avoiding common month-end close pain points - Reporting and reconciliation best practices The first and only book to offer detailed explanations of SAP ERP sales and distribution As the only book to provide in-depth configuration of the Sales and Distribution (SD) module in the latest version of SAP ERP, this valuable resource presents you with step-by-step instruction, conceptual explanations, and plenty of examples. If you're an SD consultant or are in charge of managing an SAP implementation in your enterprise, you'll want this valuable resource at your side SAP is one of the leading Enterprise Resource Planning (ERP) software products on the market, with over 40,000 implementations Covers the latest version of SAP ERP-ECC 6.0 Covers common through advanced configurations, so it's helpful no matter what your level of experience with SAP Explains the conceptual framework behind the configuration process If your company uses the SD module, keep this indispensable guide on hand. This book focuses on customizing and design changes for Controlling in SAP S/4HANA. Understand the changes to the functionality in SAP S/4HANA Finance, and how to configure them for Controlling. Compare the features of SAP Controlling in ECC and in SAP S/4HANA. Learn about modifications in SAP S/4HANA that are specific to Controlling. Obtain detailed guidelines for ledger and currency types in SAP S/4HANA. Find out about important design and configuration changes, including: cost elements now part of G/L Account, cost of goods sold (COGS) split in FI, production variance split in FI, profitability analysis in SAP S/4HANA, and Material Ledger in SAP S/4HANA. Discover more about embedded analytics and other innovations. By using practical examples, tips, and screenshots, this book brings readers up to speed on: - Key changes to Controlling with SAP S/4HANA - Customizing updates in SAP S/4HANA - Ledger and currency types in S/4HANA - Five important design configuration changes SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition?it is the only book on the

market on how to configure and implement SAP's FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP's ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more. "The International Conference on Heterogeneous Material Mechanics (ICHMM) in Huangshan, China, June 3-8, 2008 follows the successful inaugural ICHMM held in ChongQing, China in June, 2004. The ICHMM series is the first international forum that focuses exclusively on various issues related to the behavior of heterogeneous materials in a broad sense. The object of the ICHMM is to present and publicize integrated scientific and engineering approaches to the measurement and modeling of phenomena at the interface of materials science, physics, chemistry, biology, and solid mechanics."--Preface, p. xxxix.
